

Local Yonkers And Westchester Dentist Reaches The Top Again

Written by Australian Business

YONKERS, NY, May 11, 2014 /24-7PressRelease/ -- Westchester, a local magazine, offers a lot for the readers. It discusses the best eateries, culture, events and style-the best of Westchester is printed within the pages of this magazine. That includes the top health care professionals in Westchester, and dentists are incorporated into this list, including Dr. Morrow.

"It's great to see the recognition our dental practice has been getting these past few years. I know it's because of the amazing dental team I have on board and the patients. They trust us to handle the dental issues, and we do just that," says Dr. Morrow.

Westchester magazine doesn't just pick dentists out of a hat. There is a strict process that goes into finding the top dentists in the area. For 2013, the health editor of Westchester compiled this list with the help of Castle Connolly Medical, which is a healthcare research and information company.

This board has been going strong for 20 years, now being overseen by a panel of doctors of medicine (M.D.). The survey process begins with online nominations, and then the M.D.'s screen the nominated physicians by looking at educational and professional experience. The remaining nominated physicians are then judged by the response from peers.

To stay at the top of his craft, Dr. Morrow deals with dental cases with varying degrees of difficulty. On most days, Dr. Morrow works with general dentistry services, such as exams, cleanings and cavities, but he also has extensive experience with advanced dental procedures: dental implants, veneers, specialty dentures, cosmetic treatments, root canal therapy and maxillofacial surgery. And that's why he makes it onto Westchester's "Top Dentists" list of 2013.

If it's a dental service done at Dr. Morrow's office, patients will be in good hands, and their teeth will be in good standing.

To schedule an appointment with Dr. Morrow's Westchester dentist office, call (914) 476-4040. Or go to www.yonkersgreatsmiles.com for access to general dentistry and office-related information.

About Ira Morrow, DMD, PC: Dr. Morrow was raised in the Bronx and Rockaway Beach, Queens. He is a graduate of Brooklyn Tech. High School, Brooklyn College and received his
