

GOSHEN, NY, August 21, 2014 **/24-7PressRelease/** -- WRS Health, a leading provider of Health IT Platforms for medical practices, announced today that Schuylkill Otolaryngology Associates, Inc. has selected ENT-CloudSM as their Otolaryngology EMR and practice management platform of record.

Schuylkill Otolaryngology Associates, Inc. located in Pottsville, PA, specializes in the diagnosis and treatment of problems associated with the Ear, Nose, and Throat as well as Facial, Plastic and Reconstructive Surgery. Their services include: Sinus Endoscopy, Reconstructive Surgery, Audiology, Hearing Aids, and the treatment and testing of Allergies.

The WRS Health powered ENT-CloudSM, was designed specifically to meet the needs of Otolaryngologists. Our platform integrates every aspect of your head and neck practice. We can take you from appointment scheduling through revenue cycle management without any disruptions to your practice. The result: Increased efficiencies and ensuring you get paid for the services you perform.

ENT-CloudSM is pre-loaded with the content used by Otolaryngologists and all Ear, Nose, and Throat sub-specialties. Content is organized to enable you to chart efficiently. For example, an ENT Normal Review of System can be charted with just one click.

Since Otolaryngologists have varying charting needs and styles, we provide our 6-Tier Customization Engine. It enables you to quickly establish your own library of templates that precisely match your charting preferences.

Charting routine to complex encounters is simplified with our platform. For example, when you complete a chart for Adenoiditis, Cerumen Impaction, or a Laryngeal Video Stroboscope, intelligent templates enable you to quickly chart out the encounter with one-click.

ENT-CloudSM has a full library of ENT templates that can be incorporated into your practice and edited to suit your practice style. All of the content in ENT-CloudSM has been developed and reviewed by practicing Otolaryngologists.

For charting encounters that require additional or special documentation, WRS Health has engineered a smooth workflow for the otolaryngology office with a specially designed digital

pen. With our innovative digital pen technology, providers or patients merely write their information and data is immediately transmitted directly to the EHR. There is no need to spend time scanning or manually entering data. Some of our forms include: ENT Vertigo, Dizziness questionnaire with data, Vestibular evaluation form, SNOT-20 questionnaire, Epworth Sleepiness Scale, Initial Patient intake form as well as other ENT-specific patient forms and content.

The surgery scheduling workflow module in ENT-CloudSM was built to handle preoperative, perioperative and postoperative charting, billing, and scheduling functions a busy Head and Neck practice. The Surgical Scheduling queue within ENT-CloudSM is divided into four sections: preoperative management, peri-operative management, postoperative and completed surgical workflow.

ENT-CloudSM assures proper and complete reimbursement for all the services your Otolaryngology practice provides. Seamless charge entry relieves the provider, front desk and billing office of this laborious process and makes it automatic and systematized. When charting an ENT procedure, such as a Fiber Optic Laryngoscopy the charge seamlessly flows to the claim for submission without the need for re-keying performed procedures on your claims. Superbills and dual entry of data are eliminated. The ENT Surgery Workflow Queue tracks the global period so that payments for unrelated services during the global period aren't forfeited. Your pre-authorized CPT codes are automatically queued for claim submission on the date of surgery. No charges are lost in the "hand-off."

About Schuylkill Otolaryngology Associates, Inc.

Schuylkill Otolaryngology Associates, Inc. located in Pottsville, PA, specializes in the diagnosis and treatment of problems associated with the Ear, Nose, and Throat as well as Facial, Plastic and Reconstructive Surgery. Their services include: Sinus Endoscopy, Reconstructive Surgery, Audiology, Hearing Aids, and the treatment and testing of Allergies.

ENT-CloudSM by WRS Health is an integrated best-in-class EMR and Practice Management platform customized to the needs of Otolaryngologists. ENT-Cloud was designed from the ground up specifically for Otolaryngologist's unique practice needs. The creation of this comprehensive software solution was led by Lawrence Gordon, MD, founder and CEO of WRS Health, and K. J. Lee, MD, creator of SIMPLICITY, both distinguished practicing Otolaryngologists and leaders in the healthcare field. Simplicity is known for its intuitive

interfaces, ease of use and back end robust analytics for Pay For Performance.

ENT-CloudSM is powered by WRS Health, the leading cloud-based Health IT Platform for over 32 medical specialties. In 2013, WRS Health was awarded the Surescripts White Coat of Quality Award for e-Prescribing Best Practices for the third year in a row. WRS Health seamlessly integrates all of the clinical and business functions required for healthcare providers, including: Electronic Medical Records, Revenue Cycle Management, Personal Health Records, electronic prescribing (eRx), scheduling, website creation and content management, messaging, fax, order tracking, and billing -- all at an affordable price. WRS Health is a Surescripts Solution Provider for its web-based Electronic Medical Record (EMR) and Practice Management System (PM) V5.0. The EMR and PM V5.0 is Surescripts certified for prescription routing messaging. It has been designed and built by medical professionals, who leveraged their expertise to help other healthcare providers with similar issues.
