

York, NE Launches Economic Development Website

Written by Australian Business

YORK, NE, August 23, 2014 /**24-7PressRelease**/ -- York County Development Corporation has partnered with Golden Shovel Agency and its online solution, Economic Gateway, to embrace and promote economic development in the York County area of Nebraska. The new website can be viewed at <http://www.yorkdevco.com>

According to Aaron Brossoit, Golden Shovel's COO, the web solution will put York County and its surrounding area on the cutting-edge of economic development.

"The Economic Gateway provides York County with the tools necessary to collaborate and succeed long-term on the economic development front. We are particularly proud of the design which captured an authentic balance between the future and technology with the qualities of doing business in a rural community." said Brossoit.

The York County Development Corporation's strategic plan focuses on business retention & expansion and business attraction to the York County area. Key features in the new website include community profiles with demographic and workforce data, a sites and buildings locator provided by Location One Information Systems and an incentives directory for new and expanding businesses.

About York County Development Corporation:The York County Development Corporation (YCDC) is a public-private not-for-profit organization whose mission is to promote and encourage quality economic growth in York County, Nebraska. YCDC works confidentially and offers unbiased, detail and customized information to clients for no fee. YCDC is the lead economic development organization in York, County Nebraska and utilizes a team approach to ensure access to all agencies and programs that can be of assistance to your project.

About Economic GatewayEconomic Gateway is a revolutionary economic development web system that brings Greater America online quickly at an affordable price. Because the system employs a SaaS subscription model, upgrades will continually occur as they are developed. As such, there will be no need to update the web portal or site selector tool in the future - it will always be state-of-the-art, saving organizations both time and money.
