

Virginia Sanchez, RN: "Human Immunodeficiency Virus (HIV) Advocate"

Written by Australian Business

SAN YSIDRO, CA, August 23, 2014 **/24-7PressRelease/** -- Virginia Sanchez, RN is a dedicated and experienced registered nurse. Nurse Sanchez serves as an educator and counselor for patients who are suffering from HIV. With her knowledge and skills regarding HIV, Nurse Sanchez is able to educate and inform her patients in all aspects of this disease.

Virginia Sanchez, RN is a skilled Nurse Practitioner with over 35 years of experience. Through hard work and perseverance, Nurse Sanchez achieved her RN degree in Mexico. She is currently affiliated with San Cathedral Health Center in San Ysidro, California. Nurse Sanchez' primary specialty is treating patients suffering from Human Immunodeficiency Virus (HIV). Due to the depressive nature of HIV, Nurse Sanchez strongly believes that treatment be comprehensive, with an emphasis on compassion and education for her patients as well as their families.

Nurse Sanchez likes to keep current with the latest trends in her field. She regularly reads several medical and nursing journals which helps provide a higher standard of care to all of her patients. Naturally, Nurse Sanchez has acquired extensive knowledge and experience in her chosen field. Her commitment to her patients during her years of practice is testament to her desire to provide the best healthcare possible.
