

ATLANTA, GA, August 30, 2014 **/24-7PressRelease/** -- Onepath Systems, LLC announced today that it has been honored by Inc. Magazine in its 33rd annual Inc. 500|5000 list of America's fastest-growing privately held companies in the U.S. The inclusion is the first in the company's history. The Inc. 500|5000 is a distinguished award that celebrates innovation and provides the most comprehensive list of independent, widely acclaimed companies in America.

"It is an exciting time to be at Onepath Systems," says Ron Self, CEO of Onepath. "Not only have we made the Inc. 5000, but it's with a ranking of 2,453, placing us in the upper half of the companies recognized. With a 3-year growth record of 156% and outstanding customer satisfaction, we can say that all of our progress and recognition is a direct result of the efforts, strong commitment, loyalty and dedication of everyone here."

Onepath has shown rapid and sustained growth in recent years, including significant geographic expansion within the Southeast as the company serves a nationwide client base. Now with three regional offices in Marietta, GA; Lawrenceville, GA; and Greensboro, NC, the firm continues to provide clients with the most complete options for building systems integration and most comprehensive array of advanced technology solutions in the industry.

Inc. Magazine has been collecting and processing data to create this list of high-performing, privately held companies for 33 years now. The list was ordered by growth rate over the 2010-2013 period, with Fuhu, headquartered in El Segundo, CA taking the number one position for 2014.

In making the list, Onepath has joined a very exclusive club, with this year's honorees boasting an astonishing average growth rate of 516%. The company now shares a pedigree with Intuit, Microsoft, Oracle and other notable list alumni. The shared insights and resources gained from being part of this elite group will function to aid in Onepath Systems' ability to continue to serve their customers' ever-evolving technology needs.

About Onepath Systems Onepath Systems is one of the premier service providers for business, data center and building technology solutions in the Southeast and across the nation. To learn more, please visit us online.
