

Crakmedia Invests in Innovative Programs

Written by Australian Business

QUEBEC CITY, QC, August 30, 2014 /24-7PressRelease/ -- Thanks to some revolutionary features, **Crakmedia's** tools and programs have managed to propel the company to a staggering 20 billion monthly impressions - which has been particularly beneficial to the company, when promoting ads of their respective partners.

These technology breakthroughs are the result of nearly 8 years of uninterrupted development and a growing number of dedicated programmers. The company's IT Research and Development team consists of 30 members, and the company is always looking for new IT talents.

With such a large, creative and innovative team, it should come as no surprise that **Crakmedia** is reaching unparalleled heights in one of the most competitive International markets.

Among its most promising products, **Crakmedia** offers an affiliation management program, ad-rotation tools, geo-targeting products, detailed statistic programs... and so on; all of this, while creating and managing some of the highest CTR banners on the web.

The company has plans to transition into a bigger office next week, to accommodate its growing needs. Crakmedia is set to build more efficient tools, programs, and mobile applications.

Crakmedia Network is a company specializing in multimedia and e-commerce. Generating over 20 billion impressions monthly, its main areas of interest are contextual advertising and web development. For more information on Crakmedia, please visit [www.
