

NEW YORK, NY, November 19, 2014 **/24-7PressRelease/** -- Most likely you know aheadWorks as a leading provider of Magento functionality extensions and much less as a Magento themes vendor. In that case, we have a great surprise for you as, except the full box of first-class Magento extensions, we can also offer our customers 50+ high-quality [Magento themes](#)

**Website Design Stats** Sure enough, you clearly understand the importance of a website appearance for abundant sales, but the stats below can certainly refresh and reinforce your absolutely true conviction. Just imagine that:

- 94% of people cited web design as the reason they mistrusted or rejected a website (Source: 2012 Mobile User Survey. Keynote);- 48% of people cited a website's design as the number one factor in deciding the credibility of a business (Source: SME Website Statistics. Rareform New Media );- More than 9 out of 10 respondents (95%) agreed with the statement that "good user experience just makes sense." (Source: Econsultancy).

So, great website design and, what is perhaps even more important, carefully tested and approved by customers, is the mainspring of your successful sales; and the choice of a website theme is the first step towards high traffic and plentiful sales.

**aheadWorks Themes** The vast number of Magento themes offered online is able to confuse anyone, and only products from trusted companies are the guarantee of high quality and productivity. If you visit the Magento Themes page in our store, you will certainly find the theme you need. The entire set of our themes possesses all the required qualities for modern and successful Magento themes.

aheadWorks Theme Features

**Responsive Design** The overwhelming majority of our themes provide 100% responsive design for your shop, so customers experience first-class UI on any device and face no hurdles while browsing your catalog, product pages, or checkout. This feature makes you stay ahead of your competitors, as despite the recognized increasing importance of portable devices, still 48% of smartphone and tablet users complain that websites are not optimized for mobile devices, according to Google.

**Automatic Screen Size Adapting** Our themes automatically adapt to screen dimensions of any sizes without any quality losses.

**Complete and Comprehensive Themes** Most themes contain all necessary website functionality elements, including headers, search boxes, advanced navigation facilities and menus, image sliders, promotional banners, footers, social icons, payment options, high-quality product images and sliders, ratings, prices, product tabs, newsletter subscription forms, cross-sells and upsells product lists, drop-down carts, product quick-views etc.

**Highly Customizable Themes** Advanced customization options of each theme allow you to create completely exclusive and unique appearance of your Magento store easily making your site catchy and engaging.

You can choose the color scheme of the entire site, change its width, fonts, text colors, define and apply own product labels, specify social media links, enable RSS links, enable related product widgets on product detail pages, display shopping cart on top or newsletter popup on home page, etc.

**Powerful Admin Panel** The provided theme admin panels allow Magento admins configure particular theme features. Despite the functionality may insignificantly vary from one theme to another, still all of them provide numerous administration options and an intuitive backend user interface.

**Other Features** Except the mentioned above features, all our themes conform all substantial requirements for modern and high-quality Magento themes and provide all basic template features:

- PSD source included;- SEO friendly;- Fast loading;- JavaScript ready;- Cross browser tested;- Completely customizable;- Widget ready;- Easy installation.

We also provide our customers detailed installation instructions or User Guides to each of our Magento theme. Most of our themes are compatible with the latest Magento CE versions.
