It took a while and it definitely was not easy, but Advantage Credit Counseling Service is finally licensed in the state of Arizona to provide debt management services and free consumer credit counseling. Non-Profit Consumer Credit Counseling companies deliver a valuable service to the public. The companies provide financial education, free credit and debt counseling, and other helpful resources. Many consumers turn to credit counseling agencies when they need help with their unsecured debt. Not all consumer credit counseling companies are non-profit entities, but according to the Federal Trade Commission the most reputable ones are.

If a company or organization is engaged in the operation of credit counseling services in the State of Arizona, they are required to execute an Arizona Credit Services Organization Bond to ensure compliance with Sections 44-1703 and 44-1708 of the Arizona Revised Statutes (ARS). Debt management business licensure requires completion of a very thorough background check, completion of an extremely lengthy and complex application process, and payment of a large application fee.

The Agency realizes that there are many choices a consumer can make when it comes to debt relief, and they are so happy to be one of those choices.
