

(PRLEAP.COM) Salt Lake City, UT - Two new patents have issued to Utah corporations/inventors represented by [Utah patent attorney](#) Steven Rinehart in August of 2013 by the US Patent and Trademark Office (USPTO). These patents include the following:

1. Economic Means of Aspirating a Fuel Combustion Engine with Non-atmospheric Gases to Product a Subsequently Useful Byproduct (Patent No. [8,516,794](#)); and
2. Locking Electrical Socket (Patent No. Being Assigned);

Licensing contracts are already being negotiated on both patents. Steven Rinehart is working with the inventors, assignees and licensees. [Steven Rinehart](#) is a Utah patent attorney representing inventors in patenting a variety of technologies across the State of Utah and Commonwealth of Virginia. He has prosecuted hundreds of patent and trademark applications in the software, electrical, and mechanical industries. He maintains offices in Salt Lake City, Utah and Alexandria, Virginia, where he handles IP litigation in addition to his IP prosecution practice. More patents are expected to issue to Rinehart's clients in September of 2013.
