

Rohit Communities Gains Provincial Recognition

Written by Australian Business

(PRLEAP.COM) September 18, 2013 - Top home builders and renovators gathered on September 13th in Jasper for the Canadian Home Builders Association Alberta Awards of Excellence in Housing. This year, a record breaking 412 submissions were received to highlight this year's industry leaders in the province. CHBA – Alberta was excited to see such a high number of entries, which lead to tough competition in many categories.

After being selected as one of three finalists in the category of Multi-family Apartment Over \$325,000, Rohit Communities' The Duke proudly took home the design award. Separating itself from the competition, The Duke impressed the judges with its unique grand design, functional layout, attractive features, and an unbridled view of a breath taking ravine. The top floor 1865 square foot apartment features two spacious bedrooms, a private den with balcony, an extensive living room and a large outdoor patio brought to life with three double doors.

"We are excited and honored to have our designs recognized province wide. It is with unanimous pleasure for our team to be acknowledged throughout the industry, and we are very thankful to have the team of people that we do that makes this happen," said Linh Pham, Senior Marketing Coordinator. The Duke Model was also awarded locally at the Edmonton Awards of Excellence in Housing.

About [Rohit Communities](#) :Rohit Communities expanded into multi-family developments to bring an innovative perspective to living, with a focus on providing a true sense of community in every development we create.

Today's product diversification of apartment condominiums, townhomes, duplexes, bungalows and single family homes, allows us the opportunity to bring various housing styles to the communities in which we build. Introducing Edmonton to the concept of multi-generational design, our communities are developed to foster roots for families and individuals both young and old.
