TradeGreeks, publisher of several highly-rated

[options trading newsletters](#)

, including Options Speed and Options Magic, recently announced autotrading services with TradeKing.com. TradeKing received 4 out of 5 stars in annual rankings of the Best Online Brokers based on Trade Technology, Usability, Mobile, Range of Offerings, Research Amenities, Portfolio Analysis & Reports, Customer Service & Education, and Costs for the past seven years.

"We are very excited for our clients to experience quality trading and order execution at TradeKing," says TradeGreeks founder and CEO Sujoy Bhattacharya, "for investors seeking to simplify their option trading, auto trading can help to avoid many of the mistakes and missed opportunities associated with manual order entry." Auto trading is an automated way for individual investors to automatically execute investment recommendations published by TradeGreeks' Options Speed or Options Magic options trading newsletters. TradeGreeks' options newsletter subscribers would give TradeKing authority to automatically execute trade alerts received from Options Speed and Options Magic.

[TradeGreeks](#) supports autotrading through the leading online options trading firms, including: Autoshares, Ditto Trade, eOption, Global AutoTrading, TradingBlock, TradeMONSTER, TradeStation and Trade Wall Street Financial.

Options Speed offers daily options trading recommendations targeting high investment returns with shorter trading cycles using directional option trading strategies that deliver consistent performance even during turbulent market conditions. In 2013, the Options Speed trading newsletter is delivering independently verified returns of over 89% (through September 9, 2013) compared to S&P 500 Index returns of 14.5% (through September 9, 2013).

Unlike many options trading newsletter subscription services, TradeGreeks' returns are independently verified by Pro-Trading Profits, a top-rated stock and options newsletter advisory and monitoring service. TradeGreeks is consistently ranked among the top options trading newsletters for annual performance by Pro-Trading Profits, out of over 400 investment newsletters surveyed.

"For years, TradeGreeks has been delivering outstanding investment returns. With the added
