PRLEAP.COM

) Advanced Polymer Trading, an international trading company specialising in the world wide trade of rubber and plastics, will attend K 2013, the premier international trade show for plastics and rubber, which will be held from 16 October to 23 October 2013 in Düsseldorf, Germany.

The last K show was in 2010 and featured over 3000 exhibitors from 56 countries. With over 220,000 visitors the K show is a top international plastics and rubber shows that allows petrochemical material and service companies to promote their offerings to a truly international audience.

APT took an active role in K 2010 and was able to increase its supply network, meet existing partners and create new business opportunities. As an international trading company APT has partners and suppliers all over the world, by attending K 2013 the company will continue to expand its network of partners and customers. APT employees will be available to welcome its clients at the stands of Mitsui Chemical Europe, EVAL Europe, Aksoy Plastik and Indofil industries.

"We are very pleased to be attending K 2013, it is a premier trade fair for plastics and rubber." said Mr. Hamid Amiri, APT's Managing Director. "Our participation will help our company grow and innovate."

APT is a specialist in rubber, rubber chemicals and plastics and offers world class pre-sales and post-sales technical support. It prides itself in its knowledge and expertise, as well as its high level of customer satisfaction.

Over 20 percent of the companies exhibiting at K 2010 had 1,000 employees or more, demonstrating the importance of this trade fair. As an international show K 2013 will focus on raw materials, semi-finished products, machinery and services for the plastics and rubber industry. **About Advanced Polymer Trading FZC** Advanced Polymer Trading FZC (APT) is an international trading company in plastic, rubber and chemicals serving a diverse range of industries including the automotive industry, packaging industry, construction, road and building
