) G8LED is offering a limited offer discount to customers who want to do a G8LED grow light review and post a grow journal on an indoor grow forum. Customers can get a 25% discount on a light of their choice by emailing reviews@dormgrow.com

G8LED and its online retailer [Dorm Grow LED](#) sell high performance LED grow lights. For a limited time, G8LED will give participating customers a discount to post their grow journals. Online grow forums are a great medium by which indoor growers can share growing information and reviews of Dorm Grow LED and G8LED indoor grow lights. By sharing their indoor growing experiences, other growers can see first hand results of the G8LED indoor grow light system, using its Optimal 8-Band wavelength technology which has become a favorite of indoor growers throughout the Americas, Europe and South Africa. G8LED has formulated their system to be a high performance, high yielding and efficient indoor grow system utilizing the advanced LED technology.
