

Dynamic Conveyor Receives Recertification from WBENC

Written by Australian Business

[Dynamic Conveyor manufacturer of food processing conveyors and modular conveyors for industry](#) ([PRLEAP.COM](#)) Dynamic Conveyor Corporation, a business specializing in conveyor systems, received national recertification as a Women's Business Enterprise by the Women's Business Council, a regional certifying partner of the Women's Business Enterprise National Council (WBENC).

WBENC's national standard of certification implemented by the Michigan Women's Business Council is a meticulous process including an in-depth review of the business and site inspection. The certification process is designed to confirm the business is at least 51% owned, operated and controlled by a woman or women.

By including women-owned businesses among their vendors, corporations, and government agencies demonstrate their commitment to fostering diversity and the continued development of their supplier/vendor diversity programs.

About WBENC The Women's Business Enterprise National Council is the nation's largest third party certifier of businesses owned and operated by women in the United States. WBENC is a resource for the more than 700 US companies and government agencies that rely on WBENC's certification as an integral part of their supplier diversity programs.

About Dynamic Conveyor Dynamic Conveyor has been providing modular conveyors to the injection molding industry for over 20 years. DynaCon modular conveyors are custom built from standard modules that allow the conveyors to be reconfigured (like Lego® building blocks) on the customer's production floor when their needs change.

In 2011, Dynamic Conveyor introduced a new line of food processing conveyors to the food industry. The DynaClean line of food processing conveyors offer a tool-less conveying system that makes it easy to clean and sanitize, saving food processors money.

Dynamic Conveyor is a second generation business located in Muskegon, Michigan.
