(PRLEAP.COM) SAN DIEGO, CA, NOVEMBER 7, 2013: Cloud9 Real Time has announced the release of C9 Mobile, the new downloadable app from iTunes that gives Cloud9 users access to all of their desktop software applications via iPad or iPad Mini. C9 Mobile enables the [Cloud9 platform](#) for users to easily access their hosted applications while having the ability to connect with Technical Support, Submit a Ticket, Add New Users and Contact Sales.

Cloud9 debuted its new technology at the [Sleeter Solutions 13](#) Conference in Las Vegas, Nevada at Caesars Palace earlier this week. C9 Mobile provides iPad and iPad Mini users with access to the full desktop version of their applications while on the go. With over 500 applications hosted and/or integrated the combinations are endless for users.

Providing the full desktop version of [QuickBooks with Cloud functionality](#) as well as the full line of Thomson Reuters, CCH, Sage and Intuit products as well as proprietary software in the Cloud for anytime, anywhere access.

Cloud Hosting Providers are an increasingly popular solution for small to medium sized businesses that need anytime, anywhere access to their applications and data. Users can login from any device with internet connection, anywhere in the world at anytime. Moving to the Cloud also saves the business money by reducing the cost of IT labor hours, investment in hardware infrastructure, as well as software licensing, backups and maintenance.
