

( [PRLEAP.COM](http://PRLEAP.COM) ) Valley Village, CA – November 28, 2013 - Treeium [Eco Home Remodeling](#) announced today that it has received the Green Building Professional Certification by the Build It Green organization.

Build It Green is a nonprofit established in 2005. The organization's mission is to promote healthy, energy- and resource-efficient building practices in California through outreach and education on both the local and state level.

The Certified Green Building Professional (CGBP) program focuses on the principles of green building and the systems approach to the design, construction and operation of residential buildings. The program also works with building and real estate professionals to increase the awareness and adoption of [green building practices](#) .

"We are happy to have received Build It Green's Green Building Professional Certification," said Meir Barzilai, Vice President of the Commercial Division. "Here at Treeium we're continuously working to develop our eco-friendly initiatives and are committed to exploring and implementing innovative environmental practices that will help create a healthier more sustainable world."

**About Treeium Eco Home Remodeling, Inc.** Treeium is a general contracting company with over 23 years of experience and offices located all throughout California, which specializes in green home remodeling. We believe that change starts from the inside out, and that the home is a great place to start. For every need there is a green solution and this is why we offer remodeling services that help our customers create their dream homes in an efficient, sustainable, healthy way for both their families and the planet.
