

Servest has Partnered with Barloworld

Written by Australian Business

(PRLEAP.COM) Johannesburg, South Africa - With the new Barloworld Staff Purchase Agreement, Servest employees no longer have to search for the best quote and can avoid paying increased trader prices. All staff vehicles procured through Barloworld represented brands are available at a fixed price of Cost +3%.

Benefits of the Barloworld Employee Programme include: A single point of contact, access to a wide range of vehicles, highly discounted prices, unbiased advice and information on any brand, swift turnaround time and stock preference. The offer also extends to immediate family of Servest employees.

The Agreement allows any staff member, whether on car allowance or not, to request a quote on a new or used vehicle, giving employees the ability to purchase a vehicle and have it delivered directly to them without leaving their desk.

To purchase a new car, Servest employees simply visit the Servest and Barloworld intranet site where they can fill in their details and request a quote. Once a quote is requested, a Barloworld consultant will contact the employee to start the process. Part of the Barloworld offering is to make sure that Servest employees have access to the best fleet assistances from the supplying manufacturer. Additionally, Servest employees also get a service rate saving of 18% and an additional 10% discount on parts and labour rates.

"We are thrilled about this Agreement as it gives us an opportunity to reward our employees for their hard work. As part of our drive to be a preferred employer, Servest has initiated a number of employee rewards programmes to help us achieve this goal. We aim to provide a work culture and workplace environment that attracts and retains superior employees. We believe the features of the environment available at an employer of choice favour the well-being of employees and customers," says Alex Berndt, Group Business Development Director, Servest Group.

"Part of the Barloworld offering is to negotiate a flat pre-agreed pricing structure and to make sure that Servest employees have access to the best fleet assistances from the supplying manufacturer," adds Andrew Lyne, General Manager Inland, Barloworld Fleet Marketing.
