When the nights are longer, and the days are colder, a comfortable, cozy bed is a wonderful thing. But for people with custom-built frames or uniquely-sized beds, finding a mattress often results in compromise between fit and feel. With foam, you can have a mattress cut to virtually any dimensions, from a material that addresses all your comfort and support needs. Adding one of these custom pieces to a guest room bed during the holiday season gives road-weary friends and family a delightful place to rest as well.

Custom foam mattresses can be ordered to accommodate the dimensions of any bed that does not conform to standard sizing. This is ideal for antique or custom-built frames that feature dimensions outside of today's typical dimensions. With a selection of conventional foams, as well as memory foam and all-natural latex foam, a Foam Factory, Inc. custom-sized mattress is made to support, while softly cradling the body's pressure points.

The holidays can be an incredibly stressful time of the year, as people attempt to balance social obligations, travel, work, and family.
