, a leader in scientific lab supplies and lab equipment distribution, announces a special offer on PD-Tip syringe tips. Right now, clients who purchase \$500 worth of PD-Tip syringe tips will receive a HandyStep®S repeating pipette at no charge. Plus, clients will receive a free extra gift of "Lab Rat" playing cards.

PD-Tip syringe tips can be used with the HandyStep S and electronic repeating pipettes and most standard repeating pipettes. A precision seal between the piston and cylinder ensures smooth operation, increased accuracy and increased precision. Extended piston design minimizes dead volume and maximizes fluid utilization. BVA Scientific offers PD-Tip syringe tips in non-sterile and BIO-CERT options to meet the most stringent sample integrity requirements.

The HandyStep S repeating pipette, included with any order of PD-Tip syringe tips of \$400 or more, provides unprecedented versatility in a purely mechanical repeating pipette. In conjunction the PD-Tip syringe tips the HandyStep S offers nearly sixty different volume settings with accuracy, precision and dependability. The slim design of the HandyStep S is lightweight, well-balanced, and provides a convenient control layout for smooth dispensing and one-handed volume selection.

To order PD-Tip syringe tips and enjoy the added gifts of a HandyStep S repeating pipette and "Lab Rat" playing cards, visit the BVA Scientific website.

About BVA Scientific: BVA Scientific is a full line distributor of scientific laboratory supplies and equipment.
