

## SIMCO Launches a Sale on Plastic Enclosures

Written by Australian Business

---

( [PRLEAP.COM](http://PRLEAP.COM) ) One of the biggest manufacturers of plastic electronics enclosures, SIMCO, has launched three models of plastic boxes on sale. Customers can now get the 250X6 Plastic Desktop Enclosure Blue, the SCF-125 and the SIMCO 100X25 Flat Bottom Boxes Dark Grey models at discounted rates.

**250X6 Plastic Desktop Enclosure Blue** This is a desktop enclosure made out of high impact ABS plastic. It can be used for electronic items that need to be placed on a desk or a work bench. It is textured in order to resist scuffing and scratching. The enclosure measures 2.52in in height, 6.12in in width and 6.32in in length; it weighs 0.82lb and has two panels, two Plastite® screws and self-adhesive rubber feet. The item is currently discounted from \$12.50 to \$3.50, but there are limited quantities available and the discount is applicable only to the blue color enclosures. All plastic desktop enclosures are featured here:

**SCF-125** The SCF-125 enclosure has molded bottom and top, four screws, front and rear panels and rubber feet. It is suitable for desktop items with bulkier components. It measures 1.65in in height, 8.36in in width and 9.11in in length and weighs 1lb. This plastic enclosure is available in a Med Grey color for \$3.75 (the original price is \$21.50) in limited quantities. For more information about this particular product: <http://www.simcobox.com/SCF-125.html>

**SIMCO 100X25 Flat Bottom Boxes Dark Grey** This enclosure model has molded top and bottom and four S-58 Plastite® screws. It is made out of high impact ABS and has provisions for a PC board, too. The measurements are 1.04in in height, 2.53in in width and 5.05in in length and weight of 0.19lb. There are options for mounting tabs and a belt clip, too. SIMCO also offers customization options for this type of enclosure – logo printing, custom machining of connectors and switches and EMI/RFI shielding. The cost is reduced from \$4.03 to \$0.81.

All the products of SIMCO are REACH and RoHS compliant and the company follows all the US and EU regulations for safe use of chemical compounds. The durable ABS plastic is a highly reliable component for electronics enclosure boxes. The UL rated materials used in the SIMCO enclosures have been tested to comply with the 94V0 flame resistance specification.

SIMCO offers customization options for its enclosures and provides a free prototype to the clients with their desired specifications. The company can be contacted for inquiries and orders through phone, email or directly through their website [www.simcobox.com](http://www.simcobox.com) .
