

(PRLEAP.COM) March 14, 2014 - Dulles, Virginia — C2 Essentials, Inc. (C2), a leading Human Resources Outsourcing Organization providing services to small and emerging growth companies in the federal contract and professional services marketplace, presented its industry study entitled "1099s vs. W2s: the Employer's Perspective" on January 14, 2014 to an audience of start-up business leaders from across Northern Virginia, DC, and Maryland.

C2 General Counsel, Spiros Komis, led the presentation by highlighting key contractual, financial, administrative, and legal considerations for small, start-up, or emerging businesses-especially within the government contracting space. "Our clients who are new to operating or growing their business must understand how the contractual relationship they establish with their workforce can impact their operations, obligations, and risk," said Komis. "It is important to instill a framework in your operations very early on that will protect against workforce claims and government audits and investigations-which are increasing drastically in 2014," explained Komis.
