to coordinate with other furnishings in the room. The versatility of these table tops and the numerous accessories available to go with them are just part of the reason that they are growing in popularity so quickly as a trend in furniture design.

Fab Glass and Mirror offers a choice of a 42", 48", and 60" round glass table top for use as an accent table, coffee table or glass top dining table. Accessories include glass shelf brackets and rectangular or corner glass shelves; square, oval, rectangular, and oval wall mirrors; and glass table tops in square, round, or rectangle shapes in a wide range of sizes.

Contact Fab Glass and Mirror to learn more about one of the most versatile trends in furniture today. Reflect your personal taste in the choices you make for decorating any room of your home. You can also purchase a glass table top replacement to make an existing table new again. Enjoy the convenience, attractive looks, and versatility that these table tops provide at a price that makes them even more tempting.
