

## Prudential Overall Supply Introduces New HACCP Services for the Food Industry

Written by Australian Business

---

( [PRLEAP.COM](http://PRLEAP.COM) ) Irvine, CA – Prudential Overall Supply, popular supplier of high quality uniforms and textile rental solutions, has introduced their new Hazard Analysis and Critical Control Point (HACCP) uniform services for the food industry. The new service and related programs provide uniform rental selections designed to help significantly minimize the health risks associated with cross contamination and more. This comes as good news to businesses throughout the food industry that are seeking cost effective HACCP work clothes options.

The new HACCP uniform and laundering services are designed to enable companies to reach their clean process goals with a full array of solutions:

Specialized food safety garments Hygienic laundering Portal-to-portal sanitation control Documented, verifiable processing HACCP trained service staff Custom programs and services

They offer a large selection of related high quality products, including: HACCP coats, work shirts, work pants, food processing shirts/pants, hand sanitizers, air fresheners, restroom paper products, trashcan liners, quick clamp handle mops, microfiber mop systems, ADA approved facility mats, and more.

Prudential Overall Supply's new HACCP services are part of their ongoing effort to bring their clients the highest quality work uniforms and textile programs made exclusively from top rated manufactures. Their apparel, facility, and cleanroom services are used by numerous industries across the nation. As an official Clean Green Certified company, Prudential Overall Supply is widely praised for their leadership in the reusable textile industry. Their commitment to conserving natural resources and minimizing their environmental impact has placed them well ahead of the industry's standards.

Prudential Overall Supply is proud of their new HACCP work clothing services and its ability to help companies throughout the food industry reduce their risks of cross contamination.
