[Mr. John has recently published a slideshow about what to consider for your sanitation rentals.](#) ([PRLEAP.COM](#)) June 5, 2014 - Planning an event or construction site and wondering how to fill your sanitation needs? Mr. John rental services out of Pittsburgh, Pa can help. Mr. John's team of temporary sanitation experts has recently published a slide show outlining the different types of sanitation rentals available as well as the services their company offers to meet all of your temporary sanitation needs.

Mr. John offers several different types both bathroom rental units and toilet trailers, each with their own features to best cater to your needs. When selecting your bathroom rental units, be sure to choose the one with the best features fit to your specifications. Mr. John offers a variety of different units ranging from a standard model to models featuring different features including family rooms and wheelchair accessible units. Bathroom trailers offer an alternative, providing a portable restroom separated by gender and featuring sinks, mirrors, stalls and urinals.

The type of bathroom rental, the rental length and the services you choose for your rental all affects the pricing of your bathroom rental. Different services options are available with every bathroom trailer or bathroom unit rental, ensuring your rental continues to offer high quality service at an added fee.
