

Norkem Limited expands sales of Sodium Bicarbonate

Written by Australian Business

(PRLEAP.COM) July 1, 2014 - They have been pleased to hold a sales agency with a well-known Turkish producer for over thirty years and this year will increase sales by a substantial amount. A spokes-person commented that "We have had a very good start to 2014 and our efforts so far are reaping a reward, with sales during Quarter one particularly buoyant." Sodium Bicarbonate is a well-known and very versatile product used in a host of applications across many industries, including food and drink, cleaning and detergents and pharmaceutical.

We continue to co-operate with our Turkish partners and can now offer industry specific grades and packaging to match. Sodium Bicarbonate is offered in bulk road tankers, 1,000 kilo nett big bags and 25 kilo nett bags on pallets. Our stock holdings within the UK mean that we can react quickly to our customers' requirements. The quality of the products sold is of the utmost importance to us and rigorous testing is carried out by our principals ensuring that our clients receive good quality products in due time.

Norkem are a major, global stockist, distributor and producer of high quality speciality and general chemicals. Privately owned, Norkem was established in 1970 and has a head office situated in the United Kingdom and sister offices located in The Netherlands, Spain, Chile, USA, Australia and China. They also have production facilities in the UK, Belgium and Australia.
