

Aurora Storage Products Acquires Sentinel Line

Written by Australian Business

(PRLEAP.COM) July 3, 2014 - Aurora, IL – Aurora Storage Products is deepening its commitment to aiding historic preservation and academic research by acquiring a premiere line of museum storage and shelving cabinets.

The company recently inked an agreement with Tiffin Metal Products to acquire the Sentinel line of museum storage cabinets. Sentinel has an excellent reputation in providing safe, secure storage for museum items, and Aurora's acquisition of this line puts the company in an excellent position to expand its command of the museum storage supply market.

Some of Aurora's best-known storage solutions include:

Quik-Lok Shelving Times-2 Rotary Cabinets Aurora High Density Mobile Systems Aurora Wire Shelving Wood-Tek Case Goods In addition to acquiring the Sentinel line, Aurora is also pleased to announce it has recruited Linda Gottfried as the company's new sales manager for museum products. Gottfried is well known in the museum community, having worked in museum storage product sales for more than two decades. Gottfried's extensive contacts with prestigious museums and her expertise in dealing with museum products puts Aurora Storage Products in an excellent position to market the new product line it has acquired.

Safe and secure museum storage and shelving is vital to protecting our history for tomorrow's generations. Aurora Storage Products is proud to be part of this endeavor.
