

## Newark, Delaware, Author Publishes New Book "Crisis America Legaltheftism"

Written by Australian Business

---

( [PRLEAP.COM](http://PRLEAP.COM) ) "Crisis America Legaltheftism," a new book by James Francis Farny, has been released by Dorrance Publishing Co., Inc.

American society is being robbed. James Farny believes people are barely aware of it because it is put into law; it is legal. That is why Farny coined the word "legaltheftism," to "describe what is legal in a particular time and place but contrary to ethical law to not steal."

Moneyed persons dominate public opinion with deceptive advertising and control policies with gifts to officials. Special interests tell us that government is evil. Government and business are both evil when they are in collusion to get rich at public expense, deplete resources, and pollute our air, soil, and water. William F. Buckley said, "The future doesn't have a vote." We might add, "A shortsighted present doesn't care."

The Department of Transportation budget is an example. Americans are taxed to pay for the vastly expensive Interstate Highway system for private use and air travel used largely by high-income business travelers. High-speed rail and public transit get little by comparison.

Trains can carry one thousand passengers at an energy saving of ninety-six percent of the energy used in their one thousand automobiles.

About the Author: In school, Farny graduated from Lehigh University in chemical engineering and studied graduate-level transportation engineering and regional planning at the University of Pennsylvania. He served two years in the Army Chemical Corps.

He was process engineer, quality engineer, production supervisor, and staff engineer at Thiokol for 32 of his 42 years in industry.

Economy good or bad, one must find one's niche. In 1958, Farny lost a job. His boss said that he "couldn't do it." He went to Johnson O'Connor to take aptitude tests. He tested low in accounting aptitude and finger dexterity, needed in the lost job.

In two tests, Farny scored 100, namely "foresight," meaning that one thinks ahead, and

"analytic reasoning," which has been referred to as "connecting the dots." He used these abilities in his later jobs and in writing this book.

In mid-2011, Farny wrote, "All Americans are at risk if we do not get peaceful reforms." A few months later, peaceful protests began outside Wall Street, New York. This book describes reasons for widespread discontent and offers remedies. Let us find fairness and demand fairness from leaders. If corruption persists, who is at fault?

"Crisis America Legaltheftism" is a 128-page paperback with a retail price of \$15.00. The ISBN is 978-1-4349-1624-2. It was published by Dorrance Publishing Co., Inc of Pittsburgh, Pennsylvania.
