

DALLAS, Sept. 19, 2013 /PRNewswire/ -- More than 50 physicians credentialed to practice at [Texas Institute for Surgery](#) at Texas Health Presbyterian Dallas (TIS) are recognized by *D Magazine* in its October issue, Best Doctors 2013.

Best Doctors is an annual peer-review voting process. The nomination form asked board-certified doctors to cast a vote bearing in mind the following question: Which Dallas doctors would you trust with the care of a loved one?

"Texas Institute for Surgery is proud to provide the highest in quality surgeons and staff to our patients", said TIS President David Helfer, FACHE. "At TIS, we believe we have some of the most highly acclaimed surgeons in Dallas. Having many of our surgeons recognized by local physicians, and *D Magazine* as

Dallas' Best Doctors supports that belief".

Texas Institute for Surgery offers a full range of surgical procedures including orthopedic, spine, pain management and ENT, among others. *D Magazine* recognized [surgeons](#) from nearly every specialty offered at TIS.

TIS received the Dallas 100 Award from the SMU Cox Caruth Institute for Entrepreneurship for six consecutive years. TIS was also a winner in the 2010 Greater Dallas Business Ethics Awards.

TIS doctors who are listed as Best Docs by specialty are:

Cosmetic/Reconstructive Surgery
