

BEIJING, Dec. 25, 2013 /PRNewswire/ -- After releasing the Windows version of Aiseesoft FoneLab, Aiseesoft has now released the Mac version of this powerful data recovery software for iPhone, iPad and iPod touch, compatible with Mac OS X v10.6 or later.

Mac FoneLab fully supports the recovery of lost or deleted files from iOS 7 devices and has a user-friendly interface.

Recover data from iOS Devices

Mac FoneLab lets users restore lost or deleted data directly from the iPhone 5s/5c/5/4S and from iPads. The supported content includes data from Contacts, Messages (MMS, SMS, iMessages), Call History, Calendar, Notes, Reminders and Safari Bookmarks.

Directly Recover Lost Files

Twelve types of data for older iOS devices like iPhone 4/3GS, iPad 1 or iPod touch 4 can be retrieved using Mac FoneLab without iTunes backup, even if the device has crashed or is broken. Exportable text contents include Contacts, Messages, Call History, Calendar, Notes, Reminders and Safari bookmarks, while media contents include Camera Roll, Photo Library, Photo Stream, Message Attachments and Voice Memos.

Regain 11 Types of Data from iTunes Backup

It's a very simple thing to recover data from iTunes backup for any iOS device – not only the existing data in the backup but also those files deleted from devices before a backup was made. As long as they were not overwritten, all can be recovered, with 11 types of files supported: Contacts, Messages, Call history, Calendar, Notes, Reminders, Safari bookmarks, Camera Roll, Photo Stream, Message Attachments and Voice memos.
