

Awem Releases Cradle of Empires for iOS devices

Written by Australian Business

Cradle of Empires is an exciting, yet calm and steady family-friendly adventure

(PRLEAP.COM) June 5, 2014 - Awem Games, the developer of such titles as Cradle Of Rome 1-2, Golden Trails 1-3, Letters from Nowhere 1-2, and other casual games and mobile apps, announces the official world wide release of [Cradle of Empires](#) for iOS devices. The application is now distributed for free and available on the App Store worldwide.

Cradle of Empires is an adventurous match-3 puzzle with elements of city builder that features a deep storyline, thrilling quests, and a dozen of appealing characters! It is the successor of the well-known Cradle titles that has an absolutely unique twist on the classical gameplay of the series.

[Cradle of Empires](#) is an exciting, yet calm and steady family-friendly adventure. The player takes the role of the Chosen One, whose mission is to help ancient empires (Egypt at first) rise from ruins. Fulfilling tasks from the citizens, collecting powerful artifacts and bonuses on match-3 levels and in the cities, the player can work out his (or her) own gameplay strategy in the battle against evil and bring the ancient civilizations to their former glory.

Cradle of Empires Key Features:

Awem Releases Cradle of Empires for iOS devices

Written by Australian Business

A unique mix of match-3 puzzle, adventure and city builder never seen before. All-new bonus system including amulets, totems, artifacts and more to help you choose your own gameplay tactics.
