( [PRLEAP.COM](http://PRLEAP.COM) ) June 12, 2014 - "Dr. White's Pages: The Obama Reader," a new book by Yolanda White, has been released by RoseDog Books.

This book explores the early speeches of President Obama. It contends that his first term was full of missteps and not fully fleshed out legislation. Many of the fights Obama had were not all partisan. Some of the policies were not all completely finished and both parties were opposed. Some of the troubles were naivety but most were just sloppy handling and ignorance. The author attempts to give some intelligence to his pronouncements so their derivation would make more sense. So many legislators were unhappy with them. Many were unhappy with his far left boisterousness; they sought solace in the constitution but this author looked to the Bible and reinterpreted Genesis. Why the United States was viewed now as unworthy and weak is said to be God's plan. Now things were less normal and the U.S. is no longer the leader of the world. Terrorism is still out of hand as the doors slowly crumble to the "U.S. crumbling empire". The U.S. is in the throes of a religious epoch it cannot control. The number of radical Islamic republics are growing everyday and the author contends our fate is in God's hands.

About the Author: Dr. White grew up in the slums of a Baltimore neighborhood called Cherry Hill. Her grades were exemplary throughout her school career, especially Western High School, a highly competitive high school. She was active in such organizations such as the All Baltimore City Band and the Youth Orchestra as first oboe on both. She then won a scholarship to Princeton University for full four-year tuition and supplemented by cleaning and babysitting for professors. As a school activity she wrote occasionally for Business Today. After Princeton, she married a Princeton economics major named Edward White and got accepted for a tuition-free full fellowship. In her senior year in grad school, she passed the Mathematical Empirical Political Theory Comprehensive and was the first to do so for her race. She graduated from Yale's School of International Affairs and Political Science in May 1982 and started her own company in August 1982 called the Y.S/ White Report. She was awarded a contract by the British Government to research the investment potential of war-torn Belfast, Ireland. Upon returning to the United States, Yolanda continued her work on the Republican National Committee. They outfitted her with a limousine to go to speak to urban and women groups about the Nixon-esque idea of the Great Urban Frontier. She pursued her professional career as an academic and became Associate Dean at St. Francis College in Brooklyn Heights. In Staten Island she took a position as an assistant professor of international affairs.

"Dr. White's Pages: The Obama Reader" is a 44-page paperback with a retail price of \$8.00. The ISBN is 978-1-4349-1607-5.
