

WRSScompass announces Gary Gardner has joined the Company as Senior Vice President

Written by Australian Business

TAMPA, Fla., Sept. 10, 2013 /PRNewswire/ -- WRSScompass announced today the appointment of Gary Gardner, a remediation industry veteran with over 25 years of extensive experience, as senior vice president. Most recently Gardner served as SVP for the Environmental Division at Posillico Civil. He spent 23 years with Shaw/IT/OHM in various Senior Management positions including 4 years as President, Commercial Remediation and Infrastructure.

"Gary is a great addition to the executive staff and will add tremendous value as we continue to invest in and grow our commercial remediation business line," said Richard Santello, CEO of WRSScompass.

WRSScompass specializes in environmental remediation and civil construction. The company performs a wide range of services including: landfill cap and closure, in-situ stabilization, decontamination and demolition, sediment remediation, wetlands restoration and flood control. The company has been recognized for its sustainable remediation and operates in the top 1% of safety performance in the remediation industry.
