

SAN JOSE, Calif., Oct. 4, 2013 /PRNewswire-iReach/ -- *Flexgrid the Next Generation Charging Technology*

Nantronics, Inc. is a new company that has devolved its first product called Flexgrid wireless charger. Flexgrid will bridge the incompatibility gap between Powermat's Power Matters Alliance (**PMA**) standard. And the European Qi's Wireless Power Consortium (**WPC**) standard.

Nantronics is bringing its Flexgrid Platform to our new line of Apple iPhone 4/4s and 5/5s Glider Cases. Flexgrid combines the best features of the wire case world with the best features of the wireless cases. If you're looking for better value, we are offering several models of the next generation glider case. To better match your needs! Advantages of the Flexgrid Platform, is the dual mode wireless battery charger let the user move back and forth between Qi and Powermat/Duracell mats eliminating the headache of incompatible standards.

Get Wireless Power

For Your Venue which standard Qi or Powermat?

2014 Jeep Cherokee And Toyota Prius Join The Fast Growing Qi Wireless Charging Ecosystem

What is the similarity between the Toyota Avalon, Jeep Cherokee, Toyota Prius?

The Jeep Cherokee will offer a factory installed Qi wireless charging pad later this year.

The Toyota Prius and Avalon available with a dealer-installed console tray that lets consumers charge any smartphone supporting the Qi standard by simply placing the phone on the charger.

Access to power has become one of the most important factors in peoples choice of which venue to visit, what to do while there, and how long to stay. Powermat has been chosen by such global leaders as Starbucks, McDonalds, Coffee Bean & Tea Leaf, Madison Square Garden, and dozens of airports around the world. Our technology offers unique enterprise-grade systems, allowing venues to monitor, manage and monetize their wireless power. See what it looks like at: poweruphere.com

Flexgrid also includes a built in micro USB or Lightning connector for extra flexibility. Great for traveling, in car charging, any time you're away from the house. Along with the built in extended battery the wireless cases don't have.

Now pre-ordering iPhone4s/5s cases on RocketHub's Crowdfunding Website;
