

DELRAY BEACH, Fla., Oct. 7, 2013 /PRNewswire-iReach/ -- Organic Marketing Services is a full service digital marketing firm providing Search Engine Optimization, Internet Marketing, Social Media Management, Content Marketing, PPC Management and Website Design services. As one of the fastest growing Internet marketing firms in South Florida

, Organic Marketing Services continues to grow though providing a full set of Internet Marketing Services, proven performance and traffic generation for its clients. Organic Marketing Services provides Internet Marketing Services for "local" businesses as well as Fortune 500 companies looking for additional traffic and revenue growth through Search Engine Optimization and Internet Marketing.

Organic Marketing Services will be providing Internet Marketing, Social Media and SEO services for Teak Isle Mfg. Organic Marketing Services is steadily becoming a major player in the marine marketing industry. With a solid reputation of traffic generation and search engine optimization Organic Marketing Services is a great fit to help Teak Isle gain additional exposure to new markets via the internet.

"We are pleased to add Teak Isle to our growing list of marine clients. We are thrilled to work with such a diverse and established company." Stated Steven Neubarth, CEO of Organic Marketing Services.

Teak Isle is a privately held OEM supplier in the marine and boating industry. Teak Isle has 3 decades of history in the design and manufacturing of custom CNC cut products. While Teak Isle provides services and products to a variety of industries the main focus is within the marine industry. The products range from basic plastic components to more complex cabinetry systems and solid surface countertops.

Organic Marketing Services announces new client Teak Isle Manufacturing Inc.

Written by Australian Business

Teak Isle is the leading supplier of boat components to over 250 of the world's leading boat builders and is at the forefront of the marine design, engineering, and manufacturing industry.
