

MILL VALLEY, Calif., Oct. 7, 2013 /PRNewswire/ -- This has been a labor of love, designed by the husband and wife team of Tim Rempel and Liz Miranda to reflect a GREEN modern home that promotes a 'Healthy Lifestyle.'

"We design for ourselves with an eye for every detail – our homes have integrity and soul," said Liz Miranda

.

The custom, three-bedroom plus study, three-bath home sits on more than a half acre, has extensive natural light, and exudes style and innovation. This residence offers an open floor plan featuring a magnificent great room with 12-foot ceilings, floor-to-ceiling glass, and its sleek design accentuates a seamless indoor/outdoor flow. The details are everywhere from the stainless steel and Mahogany handrails, custom Aluminum and Mahogany windows, Rimadesio Italian glass doors, to a custom Hot Rolled Steel / Mahogany fireplace surround and cabinets. This is GREENpads' first project in Mill Valley after a series of homes designed in Berkeley, San Francisco, and Sausalito

.

Decker Bullock Sotheby's International Realty, the luxury real estate firm based in Marin County, California

, is pleased to announce that GREENpads LLC has chosen
