

FARMINGTON HILLS, Mich., Jan. 25, 2014 /PRNewswire/ -- RouteOne announced today the significant growth of its eContracting product in 2013. RouteOne's 4,000+ eContracting dealers have booked more than 700,000 eContracts in 2013 alone, a 300 percent increase from 2012.

"The growth we have seen in eContracting over the past year is substantiation of the strong value it provides to both dealers and finance sources," said Mike Jurecki, RouteOne CEO. "eContracting is a great way to make the F&I process more efficient, drive faster funding, and reduce costs and errors. As we move into 2014, we are looking to bring eContracting to more dealers and make it easier for any finance source to participate."

RouteOne's eContracting is supported by an increasing number of finance sources, including: Ford Motor Credit, Toyota Financial Services, Bank of America, and SunTrust, with several other major finance sources actively planning to integrate to the RouteOne eContracting platform in 2014. Key features of eContracting include:

- Support for retail and lease products
- Support for traditional and SPOT delivery sales processes
- Integration with Reynolds & Reynolds, ADP, and a number of other DMS providers
- Paper document faxing and imaging fully integrated into a completely electronic funding package
- Support for ancillary forms origination, including electronic contract forms
- Contract data validation from finance sources prior to customer signature

Dealers and finance sources interested in learning more about eContracting may visit the RouteOne booth (#5027) at NADA in New Orleans on January 25, 2014, or they may contact the RouteOne Help Desk at 866.768.8301, extension 4.
