

ORANGE CITY, Iowa, Sept. 11, 2013 /PRNewswire/ -- Quatro Composites™, a leader in the design and fabrication of composite structures, is pleased to announce the execution of a long-term Memorandum of Agreement with Gulfstream Aerospace Corporation. This MOA constitutes a multi-year contract for the development, design and manufacture of composite products for the G450, G550 and G650 Aircraft models.

"Quatro is very excited to be part of the Gulfstream Aerospace Supplier family," said Director of Sales/Marketing, Molly Sitzmann. "We are honored to be a part of the Gulfstream fleet of products, and look forward to a long and prosperous supplier relationship."

Quatro Composites™ fabricates advanced composite structures for the aerospace, medical and industrial markets. The company is registered to ISO9001:2008 and AS9100:2009 Approved and is NADCAP accredited for composites processing. Quatro offers a full line of services including design, analysis, laminate optimization, quick prototyping and qualified production of advanced composite structures. Additionally, Quatro specializes in the design of highly loaded brackets and fittings, as well as producing parts of complex geometries using processes such as bladder molding, compression molding, qualified autoclave and out-of-autoclave curing.

Quatro Composites™, a wholly owned business of Tec Industries, LLC, is an Iowa-based advanced manufacturer offering a full line of services from design, analysis, prototyping and production of advanced composite products. Quatro manufactures and engineers products for the aerospace, military / defense, industrial and medical markets. The business operates in two locations, Orange City, Iowa, (Headquarters, Manufacturing & Distribution) and Poway, California (Technical Development Center).
