

Remy International Acquires Assets of USA Industries

Written by Australian Business

PENDLETON, Ind., Jan. 13, 2014 /PRNewswire/ -- Remy International, Inc. (NASDAQ: [REMY](#)

), a leading worldwide manufacturer, remanufacturer, and distributor of starters and alternators for light vehicle and commercial vehicle applications, locomotive products, and hybrid electric motors, announced today that it acquired substantially all assets of USA

Industries, a

Bay Shore, New York

manufacturer, remanufacturer, and distributor of starters, alternators, CV axles, and disc brake calipers for the light-duty aftermarket.

"This is an exciting transaction for both organizations," said Remy CEO and President, Jay Pittas

"One of our key growth strategies is to leverage our distribution channels to enhance our rotating electrics portfolio and expand beyond our core rotating electric products. This acquisition accomplishes both as

USA

has an outstanding reputation with strong product distribution and a diverse product line that includes CV axles, calipers as well as rotating electrics."

"I'm proud to be joining Remy," said Vince Trapani, President of USA. "We are becoming part of a great global company.

USA

will benefit from Remy's distribution and global reputation, and we will add to Remy's coverage. We can serve our aftermarket customers better together, by offering more complete coverage and better distribution."

Pittas added that this partnership creates synergies by combining products, distribution, and sales forces. "Both the light-duty Remy and heavy-duty Delco Remy brand products will be
