

Research and Markets (<http://www.researchandmarkets.com/research/4wqpb4/automotive>) has announced the addition of the ["Automotive Transmission Market, By Transmission Types \[Continuously Variable \(CVT\), Dual Clutch \(DCT\)\], Vehicle Types \(Passenger, Commercial\) & Geography: Global Trends and Forecast to 2018"](#) report to their offering.

"Automotive Transmission Market, By Transmission Types [Continuously Variable (CVT), Dual Clutch (DCT)], Vehicle Types (Passenger, Commercial) & Geography: Global Trends and Forecast to 2018"

In order to meet stringent carbon emission norms and reduce transmission power response time, automobile manufacturers are continuously undertaking research efforts to [improve vehicle performance](#) which are leading to improvement of transmission systems.

Transmission systems selected for study include dual clutch transmission (DCT) and continuously variable transmission (CVT). The report provides market volume (000 units) and revenue (\$ Million) forecast for DCT and CVT from 2012 to 2018 for regions such as Asia-Pacific, North America, Europe, and Rest of the World (ROW); respective major countries, and vehicle types such as passenger cars and commercial vehicles. Profiles of the leading companies in the design, development, and manufacturing of DCT and CVT systems for automobiles are also included.

Market Highlights

Different user preferences and requirements have led to diversified market conditions for DCT and CVT across various regions. For instance, DCTs are expected to have higher installation rates and CVTs are expected to phase out in Europe. On the other hand, in North America and Asia CVTs are predominantly used over DCT.

Global DCT market is expected to reach 7.15 million units by 2018, Europe is expected to lead the market followed by Asia-Pacific and North America and global CVT market is expected to reach 11.55 million units by 2018 where Asia-Pacific is expected to

lead the market followed by North America and Europe.

The burning issues identified in the market are lower installation rates of these technologies and high cost constraints. The winning imperatives for manufacturers are identified as facility expansions, technical collaborations, and long term supply contracts.

Key Topics Covered

1 Introduction

2 Executive Summary

3 Premium Insights

4 Market Overview

5 Europe: DCT & CVT Market

6 Asia-Pacific: DCT & CVT Market

7 North America: DVT & CVT Market

8 Rest Of The World: DCT & CVT Market

9 Competitive Landscape

10 Company Profiles

Companies Mentioned

- Aisin Aw

- Borgwarner

- Fiat Powertrain

- Fuji Heavy Industries (Fhi)

- Getrag Corporate Group

- Gkn Driveline

- Hilite International

- Hofer Powertrain

- Iav Automotive Engineering

- Jatco

- Luk

- Magna Powertrain

- Miba

- Ntc Powertrain

- Oerlikon Graziano

- Ricardo

- Sulzer

- Tremec

- Valeo

- Zf Friedrichshafen
