

## GAMCO Natural Resources, Gold Income Trust Continues Monthly Distributions, Declaring Distributions

Written by Australian Business

RYE, N.Y.--( [BUSINESS WIRE](#) )--The Board of Trustees of the GAMCO Natural Resources, Gold & Income Trust (NYSE:GNT) (the "Fund") declared monthly cash distributions of \$0.09 per share for each of July, August, and September 2014.

The distribution for July 2014 will be payable on July 24, 2014 to common shareholders of record on July 17, 2014.

The distribution for August 2014 will be payable on August 22, 2014 to common shareholders of record on August 15, 2014.

The distribution for September 2014 will be payable on September 23, 2014 to common shareholders of record on September 16, 2014.

Each quarter, the Board of Trustees reviews the amount of any potential distribution from the income, realized capital gain, or capital available. The Board of Trustees will continue to monitor the Fund's distribution level, taking into consideration the Fund's net asset value and the financial market environment. The distribution rate should not be considered the dividend yield or total return on an investment in the Fund.

The Fund makes annual distributions of its realized net long-term capital gains and monthly cash distributions of all or a portion of its investment company taxable income (which includes ordinary income and net realized short-term capital gains) to common shareholders. A portion of the distribution may be a return of capital. Various factors will affect the level of the Fund's income, such as its asset mix and use of covered call strategies. To permit the Fund to maintain more stable distributions, the Fund may distribute more than the entire amount of income earned in a particular period. Because the Fund's current monthly distributions are subject to modification by the Board of Trustees at any time and the Fund's income will fluctuate, there can be no assurance that the Fund will pay distributions at a particular rate or frequency.

If the Fund does not generate sufficient earnings (dividends and interest income and realized net capital gain) equal to or in excess of the aggregate distributions paid by the

Fund in a given year, then the amount distributed in excess of the Fund's earnings would be deemed a return of capital. Since this would be considered a return of a portion of a shareholder's original investment, it is generally not taxable and is treated as a reduction in the shareholder's cost basis.

Short-term capital gains, qualified dividend income, ordinary income, and return of capital, if any, will be allocated on a pro-rata basis to all distributions to common shareholders for the year. Based on the accounting records of the Fund as of May 12, 2014, each of the distributions paid to common shareholders in 2014 would include approximately 4% from net investment income and 96% would be a return of capital on a book basis. The estimated components of each distribution are updated and provided to shareholders of record in a notice accompanying the distribution and are available on our website ([www.gabelli.com](http://www.gabelli.com)). The final determination of the sources of all distributions in 2014 will be made after year end and can vary from the monthly estimates. All shareholders with taxable accounts will receive written notification regarding the components and tax treatment for all 2014 distributions in early 2015 via Form 1099-DIV.
