

(PRLEAP.COM) San Diego, CA – CentrexIT, one of the leading [San Diego IT support](#) providers, was once again named by the San Diego Business Journal among the fastest growing companies in the San Diego area. The company's robust San Diego IT services and customer-centered culture continues to contribute to its record growth over the last three years. According to the San Diego Business Journal, CentrexIT reflects the high energy and focus of the San Diego business community.

"We are very excited to be listed again among the fastest growing companies in the San Diego area," said Dylan Natter, founder and CEO of CentrexIT. "Our growth demonstrates our commitment to client satisfaction and to providing the best possible IT support to San Diego companies. Our clients rely on us to ensure that the day-to-day operations of their company are successful, and we do not take this responsibility lightly."

As one of the fastest growing companies in the area CentrexIT continues to expand its San Diego IT support capabilities and offerings. Small and mid-size organizations, especially in technology and medical industries that may not have the resources to employ in-house IT support and management, can rely on a group of dedicated and knowledgeable IT professionals at CentrexIT for all of their San Diego IT support solutions. CentrexIT implements the latest business IT tools available to help clients stay competitive in this ever-advancing technological world.

The full range of San Diego IT support provided by CentrexIT includes design and implementation of networks, securing information through cloud technology, advanced web design and development and much more. The company's proprietary buildIT™, manageIT™, cloudIT™, and growIT™ models incorporate best-in-class solutions to establish stable, scalable and secure technology environments for small to mid-sized companies.
