

(PRLEAP.COM) Dr. Parson's new website provides in-depth information on the wide range of breast, body contouring and facial plastic surgery procedures available at his plastic and reconstructive surgery practice. Individuals who have been considering cosmetic enhancement can learn about everything from the initial surgical consultation to the risks and benefits of each procedure. Dr. Parson hopes that providing this information will help potential patients feel more comfortable about contacting his practice and taking the first step toward accomplishing their aesthetic goals.

Another noticeable change to the website is the addition of a comprehensive before and after photo gallery. Prospective patients can get a realistic idea of the kind of results that are possible through procedures such as breast augmentation, liposuction and tummy tuck, by viewing photos of patients that [Dr. Shaun Parson](#) has treated. Other useful parts of the website include the FAQ and testimonials section. Lastly, website visitors can get to know more about Dr. Parson's education, training, experience and treatment philosophies by viewing his bio section. As an experienced plastic surgeon, Dr. Parson feels that providing his background information will help patients feel more comfortable about pursuing treatment under his care.
