

[We cover all the bases when it comes to getting your messages noticed either with professional printing services, signage or online with our Internet Marketing Services. Call us 866-668-7759](#) (PRLEAP.COM) Branford, Connecticut September 9, 2013 Mosaic Printing, Signage and Marketing Services expands its menu of services to include [Web Site Leasing](#).

Mosaic Web Site Leasing Program offers affordable website leasing for small businesses across the country. Our websites are created with the latest Search Engine Optimization Technology which will, over time, rank high in search engines, allowing you to benefit from long-term website marketing strategies.

An on line presents can generate hundreds of unique visits each month, from visitors who are already looking for a business in your particular location and industry.

"Our economical website leasing program enables you to essentially "rent" a customize and optimized website for your unique business and market. This allows you to generate significant new traffic and new leads to expand your revenue." said Al Canosa

For a business in a competitive market each new referral is critical for growth. Your online marketing strategy must be cost efficient and not waste resources on poorly targeted traffic. Web Site Leasing now offer a cost effective approach for your web site marketing strategy.

Al Canosa also stated "Creating an online presence is more important than ever before and will help ensure dominance as more consumers turn to the most popular search tool in the United States in order to find your business."

There are many benefits to leasing a website such as,

- leasing preserves credit lines
- leasing increases purchasing power
- leasing balances usage and cost
- leasing conserves working capital
- Leasing is convenient

In addition to Web Site Leasing Mosaic Printing, Signage and Marketing Services also offers search [engine optimization \(SEO\)](#) for existing web sites. SEO allows you to get found on the internet, refine your brand image and reach a wider demographic. The cost-per-lead ratio is more affordable and effective with a targeted online marketing campaign.
