

MDA to provide subsystems for multiple communication satellites

Written by Australian Business

RICHMOND, BC, Sept. 10, 2013 /CNW/ -MacDonald, Dettwiler and Associates Ltd. ("MDA" or the "Company") ([TSX: MDA](#)), a global communications and information company, announced today that it has started work under three Authorizations to Proceed (ATP), totaling approximately CA\$5 million to provide multiple communications satellite subsystems. The contracts are expected to total approximately CA\$22 million and are likely to finalize over the coming months.

One ATP is for the provision of multiple communications satellite subsystems to [EADS](#) [Astrium](#) . The subsystems are intended for the Telstar 12N telecommunications satellite that will provide coverage over
Europe
,
North America
,
South America
and the
Caribbean
.

Two ATP's were received from undisclosed customers to provide advanced satellite subsystems to be integrated into two telecommunications satellites.
