

[Orlando-based Ashford Global IT recently announced that its Orlando, FL training site is its top U.S. ITIL certification and business security training facility for 2013.](#) ([PRLEAP.COM](#)) Ashford Global IT is proud to announce that its Orlando, FL training site has been identified as the company's top global site for its ITIL certification training courses. This marks a consistent run of excellence for a company that has devoted itself to developing the security skills and IT capabilities of businesses from around the world.

Orlando, FL offers a number of advantages for Ashford Global's diverse student body. The company's Orlando facility is the oldest and most important component in its extensive network. Accordingly, it provides an unparalleled, constantly growing roster of skill-development classes and IT instruction courses. The Orlando-based company's home training office now offers [classes that cover ITIL training](#), ITIL certification protocols, [security topics](#) and a range of other ["business best practices"](#) and technology modules.

Ashford Global has a deep reserve of qualified instructors at its Orlando, FL main training facility and offers unmatched access to IT and security experts. The Orlando area is also blessed with a robust transportation network, affordable lodging at national hotel chains and a major international airport that processes hundreds of direct daily flights. As a result, students and their employers enjoy convenient access to Ashford Global's instructors and realize dramatic cost savings for the duration of their courses.

In addition, the Orlando, FL area continues to experience rapid economic growth that has increased local demand for its ITIL certification courses and IT training programs. As one of the leading drivers of local job growth, Ashford understands the needs of Florida-based businesses that have thrived in a favorable economic climate.

Orlando is recognized as one of the world's premier shopping and golfing destinations. In a given year, the city attracts millions of domestic and international visitors with destinations like Disney World and Universal Studios. Many of Ashford Global's ITIL certification students bring their spouses and children along for an experience that only Orlando can deliver. In light of the business and entertainment opportunities that Orlando, FL offers, Ashford Global IT's local training site looks forward to a bright, productive future.

About Ashford Global IT

Ashford Global IT (AGIT) is a worldwide organization that specializes in delivering today's most in-demand business skills, IT and security courses. We also provide consulting services to businesses in need. Our course listing includes ITIL® best practices training and certification, IT security courses, as well as many soft skills essential to businesses today.

Our courses are offered in a variety of ways to accommodate the needs of our clients. Training is provided onsite at the client's location, online (Virtual Instructor-Led) or at an AGIT facility (Open Enrollment). AGIT is headquartered in the Orlando, Florida, metropolitan area. Here at AGIT, we believe that classroom training should be informative, relatable, interesting, and most importantly, implementable in a real world business environment. Ashford Global IT is proud of its close relationships with wide range of clients and is expanding its market in the Southeastern U. S. Region. AGIT is becoming a major presence in the global IT training community.
