

SmartSearch Document Management Software

(PRLEAP.COM) New Haven, CT - Square 9 Softworks, developer of innovative and cutting edge document management technologies, has been awarded an impressive five-star rating by Buyer's Lab (BLI) for 2013. The software company was recognized for its SmartSearch 3.5 Corporate Edition, which is an enterprise-level document management platform. This is not the first time Square 9 has been on the BLI's radar, as they were among nine winners for the 2013 Winter Pick and also received accolades in 2012.

As a contemporary software development firm working to create document organizer software, records management software, and document archiving software, Square 9 is a leader in the paperless office concept. Being awarded a prestigious five-star rating by BLI only solidifies Square 9's position in the paperless office software industry. [SmartSearch 3.5 Corporate Edition was commended](#) for a number of key features, including its ease of use, strong workflow design, simple integration, and compatibility. According to the 2013 BLI Solutions Report, "An extremely flexible solution for Windows environments, SmartSearch accommodates both electronic and hardcopy documents, the latter via the program's excellent scan-capture module that is compatible with the vast majority of scanners and MFPs on the market." In addition to the many impressive features of the system, Square 9 was acknowledged for the affordable price of SmartSearch 3.5 Corporate Edition.

Square 9 offers a multitude of content centric products beyond SmartSearch, including web forms, content integration, document workflow software, variable data printing, equipment integration, and digital document capture. Committed to developing products and solutions for a variety of business enterprises, Square 9 has a distinguished portfolio that reaches beyond normal software development. Placing the needs of their customers first, the company's effort to create a digital filing system converting paper documents into electronic files, has not gone unnoticed.
