) OStraining is holding 1 day classes in Atlanta, Nashville, Raleigh to introduce people to Drupal, one of the most popular ways to build a website.

Drupal is one of the best and most popular ways to build a website. It is flexible, scalable and is continuously improved by thousands of people around the world.

Drupal powers some of the largest sites on the web and is being widely adopted by organizations from small businesses to the White House and leading U.S. government agencies and companies such as eBay, Sony and the New York Stock Exchange. OStraining is pioneering a new type of event that will help people around the U.S. to become familiar with Drupal.

The "Absolute Beginners Guide to Drupal" is a one day event that gives attendees a fast and affordable introduction to Drupal. The first three "Absolute Beginners Guide to Drupal" events will be in Atlanta, Nashville and Raleigh:

Atlanta, GA: [December 12th](#) **Nasvhille, TN:** [December 13th](#) **Raleigh, NC:** [December 16th](#)

: One month of access to over 20 online video classes.

What Will Attendees Learn in the Absolute Beginners Guide to Drupal?

Attendees will learn how to build a Drupal website, from content and user organization, to working with modules and themes. The class will focus on Drupal 7 but questions are welcome on other versions.

The teaching style is entirely hands-on. Attendees will have a Drupal site in front of you and will be actively working and learning throughout the class.

Part 1: Introduction to Drupal: What? Who? When? Why? Part 2: Installing Drupal Part 3: Navigating the Drupal interface Part 4: Understanding Drupal content Part 5: Managing Drupal

content using content types Part 6: Adding data fields to Drupal content Part 7: Choosing and configuring modules Part 8: Choosing and configuring themes Part 9: Configuring and working with Drupal user permissions **About OStraining**

OStraining is one of the largest open source training companies in the world.

Over the last 5 years, OStraining has taught more people to use Drupal than almost any other company.

Clients include the White House, leading U.S. government agencies and companies such as Apple and IBM.
