When contacted, a spokesperson of the website said, *"Tablets are the most popular gadget this year and a number of companies are offering exciting offers for customers to cash in."*

He further added, "

We all see the craze of Kindle tablet among youth. We are presenting these amazing products at low prices and wish to surprise our customers with promotional deals on Black Friday and Cyber Monday 2013."

Kindle has been a pioneer of tablets and act as a primary e-book reader. A range of features and good quality are the major reasons behind the popularity of the same. The latest models of kindle tablet have a lot of new and innovative features including a fashionable 7-inch HDX display, exceptional color precision and a high pixel density among others. Kindle Fire has the fastest processor that is perfect for watching movies, songs and video, playing games and surfing several other websites together.

A number of experts believe that Cyber Monday has been presented as an exhilarating day for shopping, both online and in stores. The [Kindle tablet](#) also has a new and innovative feature that is known as the Mayday button that helps users to get connected with customer support executive at Amazon free of cost. The battery life of the tablets is extended to the 11 hours so that users can watch movies, look at pictures and images, listen to music, read and surf the internet freely.

Written by Australian Business

Kindle tablets have the effects of Dolby Digital Plus and feature incredible audio technology that has practical sound that is intended to optimize the audio according to the requirement of users of listening to music or talking on social sites or Skype.
