The tablets now reviewed include the Amazon Kindle with its high quality HD display. It is compared to other tablets because of its excellent color and contrast no matter what angle the screen is viewed from. The device includes a polarizing filter and anti-glare technology. In addition, the Samsung Galaxy Tablet is featured; this Android 4.0 based system with a 7-inch touchscreen offers an optimal movie and TV show viewing experience.

Visitors also have access to ASUS Tablets, with their high resolution screens and Corning Gorilla Glass 2 system, and the Coby Kyros Tablet with its wireless Internet connection and support for high speed networking. It supports the most popular apps and games, along with the hottest video, music, and photo formats.

Holiday shoppers can also find access to the Blackberry Playbook Tablet; this professional tablet combines work and play while being exceptionally portable. The MOTOROLA Tablet has a dual core processor, widescreen display, and Wi-Fi networking to optimize productivity. In addition, Top Tablets Today visitors will find information on the Lenovo Tablet, which features an HDMI port, stereo speakers, and high resolution screen. HP Tablets are featured as well.
