

The TM Group Again Earns Its Place On Bob Scott's Top 100 VARs List for 2013

Written by Australian Business

(PRLEAP.COM) Farmington Hills, Mich., February 26, 2014 –The TM Group once again has been selected as an elite member of the Bob Scott's VAR Stars for 2013, a group of 100 organizations honored for their accomplishments in the field of midmarket financial software. Members of the VAR Stars are selected based on factors such as growth, industry leadership and recognition, and innovation. Selection is not based on revenue and those firms chosen represent a wide range of size and many different software publishers of accounting software.

"Each year, 100 VAR Stars are picked from the best organizations that market financial software. It is always an honor to recognize those who contribute to the development of our business," Bob Scott said. Judy Thomas, President of The TM Group responded today, "It is truly an honor to be included in this prestigious list of outstanding companies every one of its four years. We are very thankful to our team, and our new and existing clients for enabling us to reach this milestone. This has been a very exciting 30th year for our team and we are proudest of being a Michigan-based company experiencing tremendous growth in all areas of our business."

"As one of the original Microsoft Dynamics partners, it is very gratifying to have our team of expert consultants and developers recognized yet again. Our team works exceptionally hard to stay abreast of the latest enhancements for Microsoft Dynamics GP, SL, NAV and CRM and other key Microsoft technologies, like SharePoint, Office 365, .Net and web services. Their professional commitment is much appreciated by our clients and I am happy to have their dedication to excellence rewarded," Ms. Thomas remarked.

About Bob Scott Bob Scott has been informing and entertaining the mid-market financial software community via his email newsletters for 13 years. He has published this information via the "Bob Scott's Insights" newsletter and website since 2009. He has covered this market for 21 years through print and electronic publications, first as technology editor of Accounting Today and then as the Editor of Accounting Technology from 1997 through 2009. He has covered the traditional tax and accounting profession during the same time and has continued to address that market as executive editor of the Progressive Accountant since 2009.
